## NOTES:

- \* —These TIP Development meetings, along with several emails and phone calls with PennDOT D 8-0 and CPDM staff members involved a variety of topics, including but not limited to the following: Discussions of prior TIP carryover projects, discussions of a few new projects aimed at PM2 and PM3 targets, discussion of addition of safety projects that would support PM-1 targets and whether certain projects identified in the current 2020-2045 LRTP and various special planning studies could be programmed on the TIP. This general process is outlined in general detail in the TIP Development/Project Selection Process document. The LEBCO MPO with limited program resources coordinates with PennDOT 8-0 staff and Central Office staff to ensure many multi year carryover projects move forward and any additional limited funding capacity is reserved for priority projects agreed to by PennDOT and the LEBCO MPO.
- \*\* —Unless revisions are needed, this represents the final step by the MPO. PennDOT CPDM reviews & adds to Statewide TIP (STIP), STC Approves TYP, FHWA/FTA review & approve, and STIP/TIP is implemented on 10/1.
